

Bodman PLC has served as counsel to more than one-third of the start-up and spin-off companies that have recently licensed technology from the University of Michigan. Our services to these companies cover a full range of matters from the initial business formation, operational issues, licensing of technology, capital raising, and through sale of the company. Our UM spin-off clients include the following:

3D Biomatrix	Michigan Critical Care Consultants
Accord BioMaterials, Inc.	Michigan Aerospace Corporation
Accuri Cytometers	NanoBio Corporation
Arbor Networks, Inc.	Nanobiologies, LLC
Arbor Photonics	NanoCure Corporation
Avidimer (f/k/a Nanocure)	Paradigm Diagnostics
